Example 1: General Preservation Assessment & Storage Furnishings

Elizabeth City State University

A preservation assessment of the University Archive's collection of 2,000 linear feet of manuscript materials related to the history of this historically black university, along with four subsequent awards to purchase storage furniture and rehousing supplies.

Originally established in 1891 as the Elizabeth City Colored Normal School, the university maintains a collection of books, photographs, manuscripts, and artifacts. Departmental and administrative records from the chief executives of the school, as well as correspondence with state and federal agencies, offer insight into the education of African Americans in the South both before and after racial integration.

Example 2: Environmental Monitoring, Supplies, & Training

Karuk Tribe of California

The purchase of environmental monitoring equipment, including meters to measure visible and ultraviolet (UV) light and filters to reduce light and UV exposure, as well as training for the museum's staff to implement improved lighting conditions.

The collections, housed at the Karuk Tribe People's Center, document Karuk life and culture in the pre-contact and historic periods, and include shell, nut, and bead necklaces; clothing made of animal skins; historic photographs; as well as over 100 examples of renowned Karuk basket weaving.

Example 3: Special Consult

Digital Preservation Planning

Chicago Film Archives

Consultation to assess the archives' digital collections and provide recommendations for their care. Chicago Film Archives' audiovisual collections total 25,000 items including film and prints, videotapes, audiotapes, and ephemera reflecting life in the Midwest, produced between 1903 and the late 1990s.

The consultant focused on CFA's digitized video and audio files, which amounted to approximately 20TB at the time of the grant. The project resulted in an assessment and a digital collections policy for CFA.

Example 4: Emergency Planning, Training, & Supplies

Genesee Country Village & Museum

The development of a disaster preparedness and response plan, along with workshops for staff in disaster response and the purchase of emergency supplies, for the Genesee Country Village & Museum's John L. Wehle Gallery.

The gallery houses collections that include 950 paintings, drawings, prints, and sculptures from the seventeenth century through the twentieth that represent diverse American wildlife and sporting activities such as riding, angling, and hunting, as well as a costume collection of 3,500 nineteenth-century garments and accessories that illustrate the lives of New Englanders and regional Quakers.

Example 5: Education & Training

Rollins College

Hosted a two-day workshop on digital preservation for 23 participants from Florida and the southeastern region of the U.S. The workshop would benefit the two-person staff of Rollins College's Archives and Special Collections unit, who manage an increasing volume of digitized humanities content and born-digital records, as well as archivists in the region who face similar challenges within smaller humanities organizations.

The Rollins Digital Archives includes 4,500 digitized archival items and artifacts documenting local architecture and the experiences of communities during the Civil Rights era.

Developing an Application

Eligibility

- nonprofit organizations recognized as tax-exempt under section 501(c)(3) of the Internal Revenue Code
- accredited institutions of higher education (public or nonprofit)
- state and local governments and their agencies
- federally recognized Native American Tribal government

Individuals, foreign, and for-profit entities are not eligible to apply.

Applicants must demonstrate that they:
